RED MEN STORM MIDDLESBORO

Royal Welcome Accorded Throng Who Assembled to Transact Business of Great Council.

Interesting Session And Pleasant Sight Seeing in Store for all Who Attended Great Council Meeting.

NEW GREAT CHIEFS ELECTED AND INSTALLED.

The sixteenth annual session of the Great Council of the Improved Order of Red Men convened at the Manning Theater in Middlesboro last Tuesday morning and was presided over during its deliberation in a very dignified and creditable manner by Great Sachem W. H. McDonald, of Teopitoulas Tribe No. 111, of this city.

The open session Tuesday morning was attended by a large gathering of friends of Redmanship, and was presided over by Hon. E. H. McCorkle, a Past Sachem of Oniska Tribe, No. 149.

The addresses of welcome by Mayor Helburn, Sen. Bosworth, Judge Herd and Atty. Dawson, and the responses by Great Sachem McDonald, Great Sr. Sagamore H. J. Northcutt, Great Jr. Sagamore W. A. Orader, and Hon. R. T. Crowe, were all greatly enjoyed, and the beauties of the noble order were portrayed in true style.

The Red Men's Band of this city had the distinguished honor of furnishing the music for the occasion, and did it in a very creditable manner.

The Richmond Band was also in the city and rendered some splendid selections.

After the open session, those not entitled to seats in the Great Council retired beyond the wicket and the Council was opened in due form by Great Sachem McDonald.

In the afternoon the Past Sachems and their ladies visited Fern Lake, where they were entertained with corn and venison and shown the time of their lives.

Wednesday morning the ladies were given a ride over the government road to the Lincoln Memorial University, where they were royally received and entertained.

The business sessions were continued morning, afternoon and evening until its deliberations were finally concluded Wednesday afternoon at 6 o'clock.

On Wednesday afternoon the annual election of Great Council officers was taken up and the following officers were elected:

Great Sachem, Hon. H. J. Northcutt, of Covington; Great Sr. Sagamore, Hon. W. A. Orader, of Louisville; Great Jr. Sagamore, Hon. R. T. Crowe, of LaGrange. Frank L. Smith was re-elected as Great Chief of Records and H. V. Cohn was also re-elected as Great Keeper of Wampum.

After the election of Great Chiefs, Past Great Sachem Dedrich, assisted by Past Great Sachems Augustus Ellerkamp and L. L. Bebout, raised the Chiefs elect to their respective great stumps.

The newly elected Great Sachem, Northcutt, then announced his appointive chiefs for the minor offices and named his committee. D. W. Clark of Teopitoulas Tribe No. 111, of this city being named as a member of the Committee on the Degree of Pocahontas.

All the Ladies want to attend the Great Council again next year.

The New Middlesboro Hotel was crowded to the roof, R. W. Cole, sat on top the chimney one night. He was living high.

Charley Davis was all there with his smiling countenance and was almost elected to one of the great stumps in spite of his protests. This is the second time he has had to decline the honor and it is thrust upon him again he will quit declining and accept the proffered honor.

Dr. Dozier had his vanlike trimmed in the latest style and represented Teopitoulas tribe at every run of the great session.

Henry Sweeters was there as usual to keep things straight.

Al Englehardt's motion to have a Representative vote on furnishing ice water came near resulting in his being rescaled by the Great Sachem.

The Great Jr. Sagamore's race was all one sided. Out of 308 votes cast Crowe got 250 and Sexton 58. Sexton withdrew before the vote was announced.

Lee Zweyendorf had more fun than any one from Louisville.

Ben Nann says: "Brothers if you want to visit the best place under Heaven, come to Owensboro in 1911."

Boy's Composition

on The Mule.
"A dotting father who lives in the West End," says The Louisville Times, "and who has an illen all his own in supplementing the work of the common schools in educating his boys, applied one of his methods to an eight-year-old prospect a few days ago by laying upon the little fellow a task of writing an essay."

"The boy requested the father to furnish the theme. The father instructed the lad to write about mules, since the little fellow shows a peculiar interest in that specific quadruped. Two hours later the boy, with a smile of triumph, interrupted the father in his perusal of an evening paper, with this:—

"Mules is a funny thing. He likes a nigger all right, and won't kick a nigger because he can't kick where the nigger's brains is. A mule believes he is a horse. The reason he thinks so is that his mammy is a horse. He ain't got no lookin' glass an' he thinks 'cause his mammy is a horse he is too. He thinks all other mules is just mules."

"The reason a mule runs with his eyes lookin' on both sides is he thinks one eye might not be as good as the other and he can't see behind him with both eyes at the same time."

"Mules is called shawled mules because they used to pull the street cars in Louisville. They was turned over to the wire wagons when they got so they couldn't pull the cars fast enough and they put on bigger motors than mules. Sometimes mules worries a little because they ain't got no young ones, an' they can't understand why their daddy is not a mule, and their mammy is a horse. Mules is certainly a funny thing."

SECRETARY FOR TUBERCULOSIS WORK

Eugene Kerner Engaged.

Kentucky First State to Take Such Action.

The Kentucky Association for the Study and Prevention of Tuberculosis announces that it has engaged as Field Secretary, Mr. Eugene Kerner of New York. Mr. Kerner is now at the headquarters of the Association, 215 East Walnut street, Louisville, Kentucky.

Kentucky hears the distinction of being the first state in which the Tuberculosis Association has put a Field Secretary at work. Mr. Kerner's first duty will be to gather information with regard to the situation in Kentucky, the sum total of which is now very meager. He will try to ascertain from examination of local death records the death rate from tuberculosis in different parts of the State, existing legal regulations on the subject, if any, and preventive measures in force.

He will photograph typical tenement house and factory conditions in various parts of the State that are a factor in inducing the disease. The Association hopes that in a few months it will have ready a creditable exhibit showing the Kentucky situation. This may possibly be sent to the county fairs in charge of some one who can explain its features.

Mr. Kerner will try to organize local Anti-Tuberculosis Association wherever possible to affiliate with the State Association. In this work it is hoped he will have aid of the Federation of Woman's Club, the Kentucky Educational Association and the press of Kentucky. He will try to bring about the establishment of local sanatoria of free dispensaries with visiting nurses for tuberculosis and to create throughout the State such a sentiment that it will be impossible at another Legislature to debate the bill for a State Sanatorium for Tuberculosis already presented to three Legislatures.

Mr. Kerner's social experience fits him well for the work he has undertaken. For the last fourteen months he has been with the Associated Charities of Pittsburgh, as Superintendent. Prior to that he was with the Chicago Bureau of Charities one year. While in Chicago he attended the School of Philanthropy in a special For three years he was manager of a private sanatorium in Newark New Jersey in which a large number of tubercular patients were treated during the five years that he was connected with this institution he made an extensive trip through Europe to study social conditions before taking up the sanatorium work he was in charge of all the laboratory work of a large hospital in Newark, where he became especially interested in tuberculosis.

Mr. Kerner invites correspondence from any persons in Kentucky interested in stamping out of tuberculosis.

TO HELP INDUSTRIES

The "25,000 in 1912" Club Springs a Good Scheme.

A Loan Association Will Furnish Capital For Plants.

One of the first results to follow the inauguration of the "25,000 in 1912" club was launched Monday at a meeting held at the law office of J. T. Shipman.

The Washington County Mortgage company, capitalized at 25,000 with shares selling at \$25.00 each, was organized, and by-laws provided for and an executive committee of three members, which being put to a vote, resulted in the election of the following officers:

H. J. Holm, president Dr. R. D. Rood, vice-president; and J. W. Masters, secretary and treasurer.

The object of the company is to loan money to any and all deserving institutions that may aid to Bartlesville's welfare, and the promptness with which the stock was sold is evidenced by the large number of investors, who realize the double opportunity of sharing in the profits of the company, and incidentally boosting Bartlesville, by lending an assisting hand to worthy institutions, when on account of insufficient funds, have heretofore been compelled to materialize more slowly. The following is a partial list of the stockholders of the new company:

Geo. C. Pristley, Wm. Johnstone, Frank Phillips, Geo. B. Keeler, Jr., R. D. Rood, John J. Shea, Cherokee Hardware and Furniture company, Joe F. Goveaux, Master's Clothing Company, H. J. Holm, J. W. Money, J. J. Carl, H. A. Beasley, A. D. Morton, H. W. Pemberton, H. V. Foster, L. C. Pollock, D. F. Wallace, J. O. Taylor, and Fred McDaniel.

It was also found there would be an immediate and ready outlet for investing the funds of the company, upon guilt-edged security. The matter of assisting the Bartlesville Fair association was considered and it was decided to build at once a \$5,000 grand stand, which was contracted for simultaneously with the decision of the company to advance the loan to the Bartlesville Racing Park.

This is not the only concern to be benefited, however as the Washington County Mortgage company intends to work shoulder to shoulder with the "25,000 in 1912" club and it will certainly prove a worthy ally in securing many excellent industries for our city.

As a result of the last meeting held the barbecue and smoke is a settled thing, and the procuring of speakers and prominent out-of-town capitalists has been taken care of, likewise the printing of banquet tickets, and membership certificates is being done and, altogether, the work of organization is well under way, and a few days more will see the wheels grinding for Bartlesville, and 25,000 people in the year of 1912.

In view of the Baccalaureate service of the Baptist Institute, which will take place at the Baptist church Sunday morning, the services at the Christian church will begin at 10:30, but five minutes intermission following the Bible school, and will conclude by 11:15, in time for the whole congregation to join in the baccalaureate service. The choir of the Christian church will assist that of the Baptist church in the service.

The same order of service will be followed at the Union College Baccalaureate service on the following Sunday.

A HAPPY APPOINTMENT.

We have, with pleasure, learned that Governor Wilson has under consideration the name of the Hon. F. D. Sampson, of Barbourville, for appointment to the new Judicial District Circuit Bench of Knox and Whitley. No appointment more popular, nor, indeed, more fitting, could Governor Wilson make. Judge Sampson is a good lawyer. He is even tempered, well balanced, conscientious and studious. He won highest regards, both of lawyers and litigants, during his services as County Judge of Knox. Highly esteemed in the business life of the Mountains, occupying as he does the responsible position of President of the First National Bank. Judge Sampson is also deeply concerned in the educational progress of Eastern Kentucky. He serves acceptably as President of the Home Board of Union College, one of the leading Methodist Institutions of higher education in Kentucky. He has the happy art of knowing how to do many things, and of doing each one well. His every day, busy life gives ample evidence of the clear headedness and equipoise so essential to the bench.

Governor Wilson is a favorite in the Mountains. The Mountain people voted for him in an enormous majority, because they looked on him as the people's friend. He has shown in very marked degree a sincere desire to meet popular desire whenever fittingly expressed. The people of Knox County expressed, not many months ago, their preference for Judge William Lewis over Judge H.C. Faulkner in the matter of the Circuit Judgeship for which both these gentlemen at the time contended. The people of Knox County do not want Judge H.C. Faulkner for Judge of the new Circuit District, of which they now form part. Their preference for Judge F. D. Sampson is unmitigable.

We respectfully invite the Governor to further endorse himself to the people of the Mountains, by naming the Hon. F. D. Sampson, first Circuit Judge of the new Judicial District of Knox and Whitley. Judge Sampson is deserving, capable, high minded, a loyal Republican and a genuine Christian gentleman.

PRESS OF THE MOUNTAINS ACCLAIM POWERS.

The Tompkinsville News writes: The Republicans of the Eleventh District will soon have to make a choice as to whom they want to represent them in the sixty-second Congress. The district is one of the great Republican strongholds in the United States and many brainy men in its domain who would make splendid representatives. The district has honored Mr. Edwards with the office three times and he is now asking for a fourth term. There are other men in the district just as capable as Mr. Edwards and men who have labored even harder than Mr. Edwards for party success who would like to share the honors of this office also. Hon. Caleb Powers is now asking the district to consider his claim and if found consistent, elect him to the sixty-second Congress for the first time instead of Mr. Edwards for the fourth term. We view this matter without bias or prejudice. We have our preference between the men. We have always advocated that no one man should get larger than his party. We believe in political liberality. We believe that officers were created to be filled by the people and that the people should dominate in the election of men to these offices instead of political machines. We believe if

there is honor and profit in the offices that no man is entitled to it all. We believe that a continual changing of officers is just and fair and is our greatest safeguard against graft. We believe Mr. Powers' claim is meritorious. He has fought long and hard for Republican success in the state and district. From the standpoint of ability and fitness he has no peer in the district. Mr. Edwards has been dealt with kindly by the party and his further demands for his fourth election indicates his appreciation for what the party has done for him. The district owes him nothing, but he owes the district, at least some gratitude and he should show it by surrendering the race to Powers, whom the people will elect to represent it. The history of office holding clearly demonstrates that long terms as officials tend to make public dictators instead of useful public servants out of men. The London Sentinel thus expresses itself.

The victory of the Insurgent Republicans and Democrats over the regular Republicans in the House of Representatives last Saturday is the best thing that has happened in that body for many years. We sincerely hope they will now be able to pass some laws for the good of the people and not the manufacturing trusts.

It's a great pity that they didn't throw off this yoke before the present tariff monstrosity was passed. —Monticello Outlook, March 24. The Monticello Outlook, one of the four papers in the district supporting Don Edwards, took a rest in the Congressional race last week, perhaps because Boss Kennedy was too busy to write his usual editorial. However, his printed interest in the above editorial, which must have been a great shock to Kennedy when he read it. The "why" is evident. Don Edwards' study by Uncle Joe Cannon, in effort probably to get favors from him, and not because he thought it best for the people. Edwards supported the high tariff, because he himself owned a lot of soft lumber that needed protection to bring him greater profits. Edwards called himself a "regular Republican," and why not the Outlook join the band of the righteous and help the Eleventh District "throw off this yoke?"

The expression of the people of Leslie County here at the present term of Court was almost unanimous in favor of Mr. Powers. There is more or less talk as to what Edwards' Committee of three will do in drawing rules to govern the primary. If they should not draw the line and let the democrats vote, it will make Powers stronger, because it will be the republicans of the district against not democrat but a Goelz democrat. If the Edwards machine does not make rules that will be so strict that only republicans can vote, he, Edwards will not only be worse than a democrat but will be dishonest and devoid of the principles of a man, not to say a Congress member. All that Mr. Powers wants is fair play and a republican primary.—Thousandsticks.

A poll of the vote between Mr. Edwards and Mr. Powers was taken in the barbershop in Hyden the other day and it was 11 to 2 in favor of Powers. It is about that way in every district in the county. If Leslie County votes the way she talks it will give Mr. Powers 8 or 9 hundred majority.

ESSAY ON EDITORS.

I don't know how newspapers came to be in this world. I don't think God does, for he hasn't any thing to say about them and editors in the Bible. I think the editor is one of those missing links you read of. He stayed in the bushes till after the flood and then came out and wrote the thing up, and has been there ever since. I don't think he ever dies. I never saw a dead one or heard of one getting licked. If the editors makes a mistake people say he ought to be hung; but if a doctor makes any mistake he buries them and folks dissent say nothing, because doctors can read and write Latin. When the editors makes a mistake, there is a law-suit, swearing and a big fuss; but if the doctor makes one there is a funeral, cat flowers and perfect silence. A doctor can use a word a mile long without any one knowing what it means, but if the editor uses one he has to spell it. If the doctor goes for the visit; but if the editor goes he gets a charge of buck-shot. When the doctor gets drunk it is a case of being overcome by the heat, and if he dies it is in heart trouble; when an editor gets drunk it is a plain case of too much booze and when he dies it is from a cause too disgraceful to speak of. Any old college can make a doctor; but an editor has to be born.—Exchange

The Habitable Earth.
The entire habitable area of the earth is given at 40,000,000 square miles, of which the extreme fertile limit may be set at 7,500,000 square miles. With the generally accepted sustaining capacity of 200 persons to the square mile, this area could by systematic tillage be made to yield subsistence to 7,500,000,000 human beings. It has been calculated that within 210 years the world's population will be swelled to 7,500,000,000 souls. What will happen 200 years hence, when the population of the earth will be 16,000,000,000, is a problem.—New York American.

LOCAL LOOM BREVITIES

State Guards Organized.

A Company of State Guards was organized here last Monday night by Maj. Longmire, of Frankfort. J. F. Catron was elected Capt., Walter Jackson 1st Lieut., and James Hinkle 2nd Lieut. A large number, about 61, were enrolled and clothes, guns, etc. will be issued within a very short time. A movement is on foot to have an armory erected here, which would be a great convenience to the company.

A New Game Law.

Book agents may be killed from October 1 to September 1; spring poets from March 1 to June 1; scandal mages April 1 to February 1; umbrella borrowers August 1 to November 1 and from February 1 to May 1, while every man who accepts a paper two years but when the bill is presented says: "I never ordered it" may be killed on sight without reserve or relief from valuation or appraisal laws, and barred lake downward without benefit or clergy.

Her Indorsement.

"I want this check cashed," said the fair matron, appearing at the window of the paying teller.
"Yes madam. You must indorse it though," explained the teller.
"Why my husband sent it to me. He is away on business," she said.
"Yes, madam. Just indorse it--sign it on the back, so we will know and your husband will know that we paid it to you."
She went to the desk against the wall, and in a few moments presented the check triumphant, having written on its back:
"Your loving wife, Edith."--Ex.

U. C. Wins Two.

Union College ball team went to Straight Creek last Saturday and crossed bats with the boys of that place. The team had been strengthened by the return of McDonald and the boys were confident of walloping Straight Creek. Although the team of Straight Creek has several salaried players, they were like beginners in the hands of McDonald, who had them at his mercy with his big benders. The final count was 11 to 2.

Tuesday Union added another star to her crown by taking Middlesboro's scalp for the second time this season by the score of 11 to 2. These two victories right on the heels of the crushing defeat given them by London, puts more gin-

ger in the boys and better prospects for the outcome of their trip South. Leaving Middlesboro, they will invade the South, where they will meet a number of strong College teams.

The Foolish Husband.

He toiled and sweated half his life to hang rich garments on his wife. "I haven't time to cut a dash," he said. "But I will blow the cash to let those swelled-up neighbors know that I have got the cash to blow." And so his good wife wore her laces, and dress a rags was always here: she had her gems from near and far, and glittered like an auto-car; she had a new wondrous gown for every "fancie" in the town; her life seemed sunny, gay and glad, this wife who was her husband's ad. One night, his day of labor o'er, he found her weeping at the door, and when he asked her to explain, she stopped awhile the bright rain, and cried: "This life my spirit fags! I'm tired of wearing flimsy rags! I'm tired of chasing through the town, a darning in a costly gown! I'd rather wear a shawl, sack, or leather life net on my back--and have you with me as of yore--thick all the cables in the store! and if you really love your wife, you'll get back to the simple life. Don't try to gather all the dough that's in it in this world; live just earn enough to pay the freight, and let us live in simple state, in some neat shanty far away from pomp and fuss and vain display--some hut among the cacklurs, remote from jewels and furs!"--Walt Mason.

Phonetic Spelling.
Phonetic spelling was evidently in fashion in the sixteenth century, when even Shakespeare could not spell his own name consistently. There is a letter dug from the correspondence of a lady of the sixteenth century in the book of the "Cotswold Family"--the Hicks-Beaches. Juliana writes--It is a matter of debt between the cautious widow and "My lord a Kaldar."--My lord Annamari and your wife I honour and love, but your false swearing and promise I detest a pore. What she really meant was "utterly abhor."--London Chronicle.

Nervous Collapse

"I have traveled for thirty years continually. I lost a great deal of sleep, which together with constant worry left me in such a nervous state that finally, after having two collapses of nervous prostration, I was obliged to give up traveling altogether. I doctored continually but with no relief. Dr. Miles' Nerveine came to my rescue--I cannot describe the suffering which this Nerveine saved me. Whenever I am particularly nervous a few doses relieve me." A. G. LIBBY, Wells, Me.
There are many nervous wrecks. There is nervous prostration of the stomach, of the bowels, and other organs. The brain, the kidneys, the liver, the nerve centers are all exhausted. There is but one thing to do--build up the nervous system by the use of Dr. Miles' Restorative Nerveine. Its strengthening influence upon the nervous system restores normal action to the organs, and when they all work in harmony, health is assured. Get a bottle from your druggist. Take it all according to directions, and if it does not benefit he will return your money.

The Very Best.
The best trimming for a woman's hat is a good humored face--Lippincott's.

This contractor got results.
Some years ago a contractor building a railroad in a warm climate was troubled a great deal by sickness among the laborers.

He turned his attention at once to their food and found that they were getting full rations of meat and were drinking water from a stream near by.

He issued orders to cut down the amount of meat and to increase greatly the quantity of Quaker Oats fed to the men.

"The cost was small; 10c for regular size packages; it is also packed in hermetically sealed tins for hot climates."

Wanted--Timber.
